Program Description and Objectives
The knowledge of the pathogenesis, diagnosis, and management of glomerular diseases is advancing rapidly. We assembled a panel of international experts and opinion leaders in this growing field to discuss these advances. Using lectures, interactive case-based discussions, and self-assessment questions with audience response systems, participants are exposed to this wealth of information in an approachable and clinically applicable manner. At the conclusion of this program, practitioners are able to apply this information gainfully while taking care of challenging patients with glomerular disease, both common and uncommon.

Upon completion of this program, the participant will be able to: 1. describe and integrate the pathology, diagnosis, and therapeutic options for glomerular diseases; 2. integrate information from current basic and clinical research studies and apply them to diagnosis and management of glomerular disorders; and 3. analyze nuances in the treatment of difficult patients with glomerular disease with experts in glomerular disease.

Target Audience
- Physicians
- PhDs and Other Researchers
- Medical and Other Trainees—Including medical students, residents, graduate students, post-docs, and fellows
- Nurses and Nurse Practitioners
- Pharmacists
- Physician Assistants
- Other Health Care Professionals
SCHEDULE: Tuesday, November 15

7:00 a.m. Registration and Continental Breakfast
8:00 a.m. Management of Nephrotic Syndrome  
  *Jai Radhakrishnan*
8:40 a.m. Pathology of FSGS and Membranous Nephropathy  
  *H. Terence Cook*
9:20 a.m. Management of Minimal Change and FSGS  
  *James Tumlin*
10:00 a.m. Break
10:30 a.m. Management of Primary Membranous Nephropathy  
  *Andrew Bomback*
11:15 a.m. Management of IgAN  
  *Heather Reich*
12:00 p.m. Lunch (on your own)
1:00 p.m. Pathology of C3GN and TMA  
  *H. Terence Cook*
1:40 p.m. Management of C3GN  
  *Gerald Appel*
2:20 p.m. Management of TMA  
  *Samir Parikh*
3:00 p.m. Break
3:30 p.m. Applying Lessons of the Day, Case Discussions  
  *Heather Reich, Brad Rovin*
5:00 p.m. Adjourn
SCHEDULE: Wednesday, November 16

7:30 a.m.  Continental Breakfast

8:00 a.m.  Pathology of Dysproteinemias  
            *Glen Markowitz*

8:40 a.m.  Management of Dysproteinemias  
            *Nelson Leung*

9:20 a.m.  Management of Lupus Nephritis  
            *Brad Rovin*

10:00 a.m.  Break

10:30 a.m.  Management of Vasculitis and Anti-GBM Glomerulonephritis  
            *William Pendergraft*

11:10 a.m.  Management of Infection-Associated Glomerulonephritis  
            *Warren Kupin*

12:00 p.m.  Lunch (on your own)

1:00 p.m.  Glomerular Disease in Cancer  
            *Jai Radhakrishnan*

1:40 p.m.  Glomerular Diseases in Pregnancy  
            *Liz Lightstone*

2:20 p.m.  Glomerular Diseases in Children  
            *Keisha Gibson*

3:00 p.m.  Break

3:30 p.m.  Jekyll and Hyde: Risks of Glomerulonephritis Therapy  
            *Warren Kupin*

4:10 p.m.  Clinical Pathology Conference  
            *Glen Markowitz, Heather Reich, Brad Rovin, James Tumlin*

5:00 p.m.  Adjourn
